# About Us

## SUPPLYING PRODUCTS THAT WORK FOR YOUR BUSINESS.

Gulf Link Venture Company was established in 1998 offering wide range of multi-disciplinary services in Trading & Projects such as Electromechanical, Communication, Instrumentation, Fire Alarm, Security Systems, Civil, in addition to Steel fabrication, Specialized Manpower Supply, Material Supplies (Furniture, Cabinets, Kitchen Items, Sanitary Items and all House Hold Items, Electronic Items, Spare Parts for Machines & Vehicles) and General Maintenance works in U.A.E., Kuwait and India.

GLV represents many years in setting new standards in delivering a range of quality services and products to our Clients. Emerging in a highly contested market in Kuwait, GLV sought to distinguish ourselves from our competitors through providing quality that doesn't compromise in any of our services. We believe strongly that a key objective in the establishment of GLV was to create an environment to improve the effective delivery of services to our customers. In a short period we reached the height at having our own offices around Kuwait, India and in U.A.E. markets.

As a customer, you know that competing in the Global market, takes more than just the right product. This is where we can help you. GLV ensures delivery of your products to the Right Place, at the Right Time and at the Right Price..... which makes all the difference. GLV has diversified and grown and introduced new technologies and innovations and techniques, but the success over the years also reflects their total commitment to the client. This has been achieved by a highly trained, dedicated team.

The Annual Turnover of company is expected to reach around 6.5 Million USD.

# Vision & Mission

## Vision

Our vision is to become the industry leader in delivering quality products and services to meet our clients` needs. We will make this happen in an enriching environment of Trust, Co-operation and Mutual Respect. To be considered the leading trader of choice in the region and beyond, through successful deliverance of our projects coupled with an uncompromising focus and dedicated commitment to our customers duly surpassing their most optimistic expectations and requirements. To provide excellence in client service, unique in experience, value based in approach, and pioneering in efforts for enriching and fulfilling effective Service to the clients there by improving and leading the society to Prosperity.

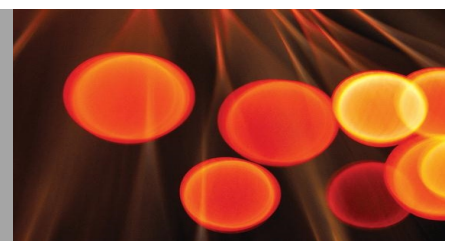

## Mission

In order to successfully achieve our vision, we have set the following mission:

To develop and maintain a dedicated, motivated, capable, and proactive workforce; to encourage creativity and innovation through recognition and reward; to promote a professional and ethical work environment; to motivate a policy of continuous improvement; to stringently adapt to market change and demand; to maintain and nurture an ethos and focus on safety and quality of the highest standards; to ensure longevity of our company through repeat and referral business achieved by total customer satisfaction in all areas, foremost on timely completion, adherence to budget, attention to detail and service minded attitude; to maintain the highest levels of professionalism, integrity, honesty and fairness in our relationship with employees, suppliers, subcontractors, and customers.

# Values & Ethics

## Core Values

- Continuous improvement, innovation and excellence
- Quality, health, safety and security
- Efficiency and effectiveness
- Transparency
- Teamwork and integrity
- Reliability and accountability
- Social and environmental responsibility

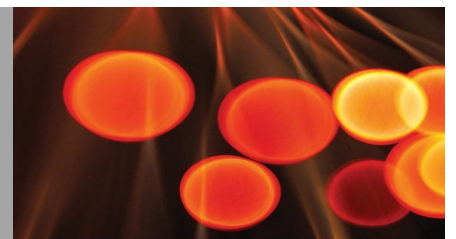

## Code of Ethics

This code of business conduct and ethical guidelines are a standing guide for handling business situations in an honest and professional manner. Furthermore, they assist us in making key business decisions. We designed this code to deter wrongdoing and to promote:

- Honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships
- Full, fair, accurate, timely and transparent disclosure in all reports and documents which we file and in other public communications made by us
- Compliance with applicable governmental laws, rules and regulations
- The prompt internal reporting to an appropriate person or persons, identified in the code, of any violations of the code
- Accountability for adherence to the code

# Quality Policy

GLV is committed to meeting all the requirements of its clients and regulatory bodies at all times and at minimal cost. All employees are responsible for the quality of work carried out on civil, electromechanical services and other performances.

They have the authority to ensure that quality requirements are met in full, improve our construction quality, maintain the company's competitive advantage, satisfy its clients and comply with the requirements as defined in international standard.

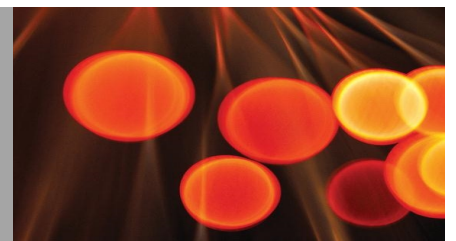

We believe that a quality project is one which delivers the performance expects. Quality always begins with an understanding of a customer's requirements throughout the execution of the entire project.

Quality Control and Safety of the project shall be assured by performing the below:

- Checking of the procured materials when delivered at site, to ensure the compliance with approved submittals. Required PPE while on the site.
- Site Smoking Policy. Site Housekeeping Requirements
- Parking and Site Access Restrictions. Safety & Environmental Rules and Practices (Location HSE Handbook). Electrical safety requirements, including no live work and appropriate PPE.
- Emergency response information (alarm signals, location of shelter areas, etc.)
- Notification requirements regarding accidents, incidents and near misses
- Requirements regarding use of chemicals at the site and means of obtaining a Material Safety Data Sheet.

# Strategy & Sustainability

## Our Strategy

At GLV, our philosophy is that our own success is directly related to our clients' current and future requirements. With this in mind, we continually strive to identify alternative methods, quicker and more economical processes, and to help predict future client requirements within each project's scope.

By forming these special bonds, we are able to forge better relationships at all levels within our joint businesses. Our approach consistently results in significant cost savings for our clients, which in turn facilitates the high percentage of repeat orders which form an integral part of GLV's ongoing success.

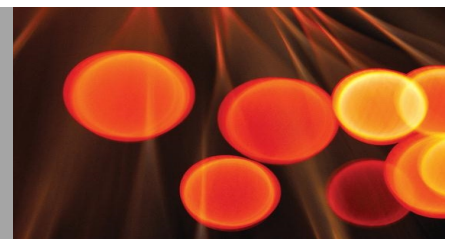

In addition, it is our strategy, where appropriate, to seek to share with our clients the benefits which emanate from our significant resources and strong capital base. This gives our clients great confidence that we are a competitive but performance driven organization, focusing on quality, efficiency and delivery.

## Sustainability

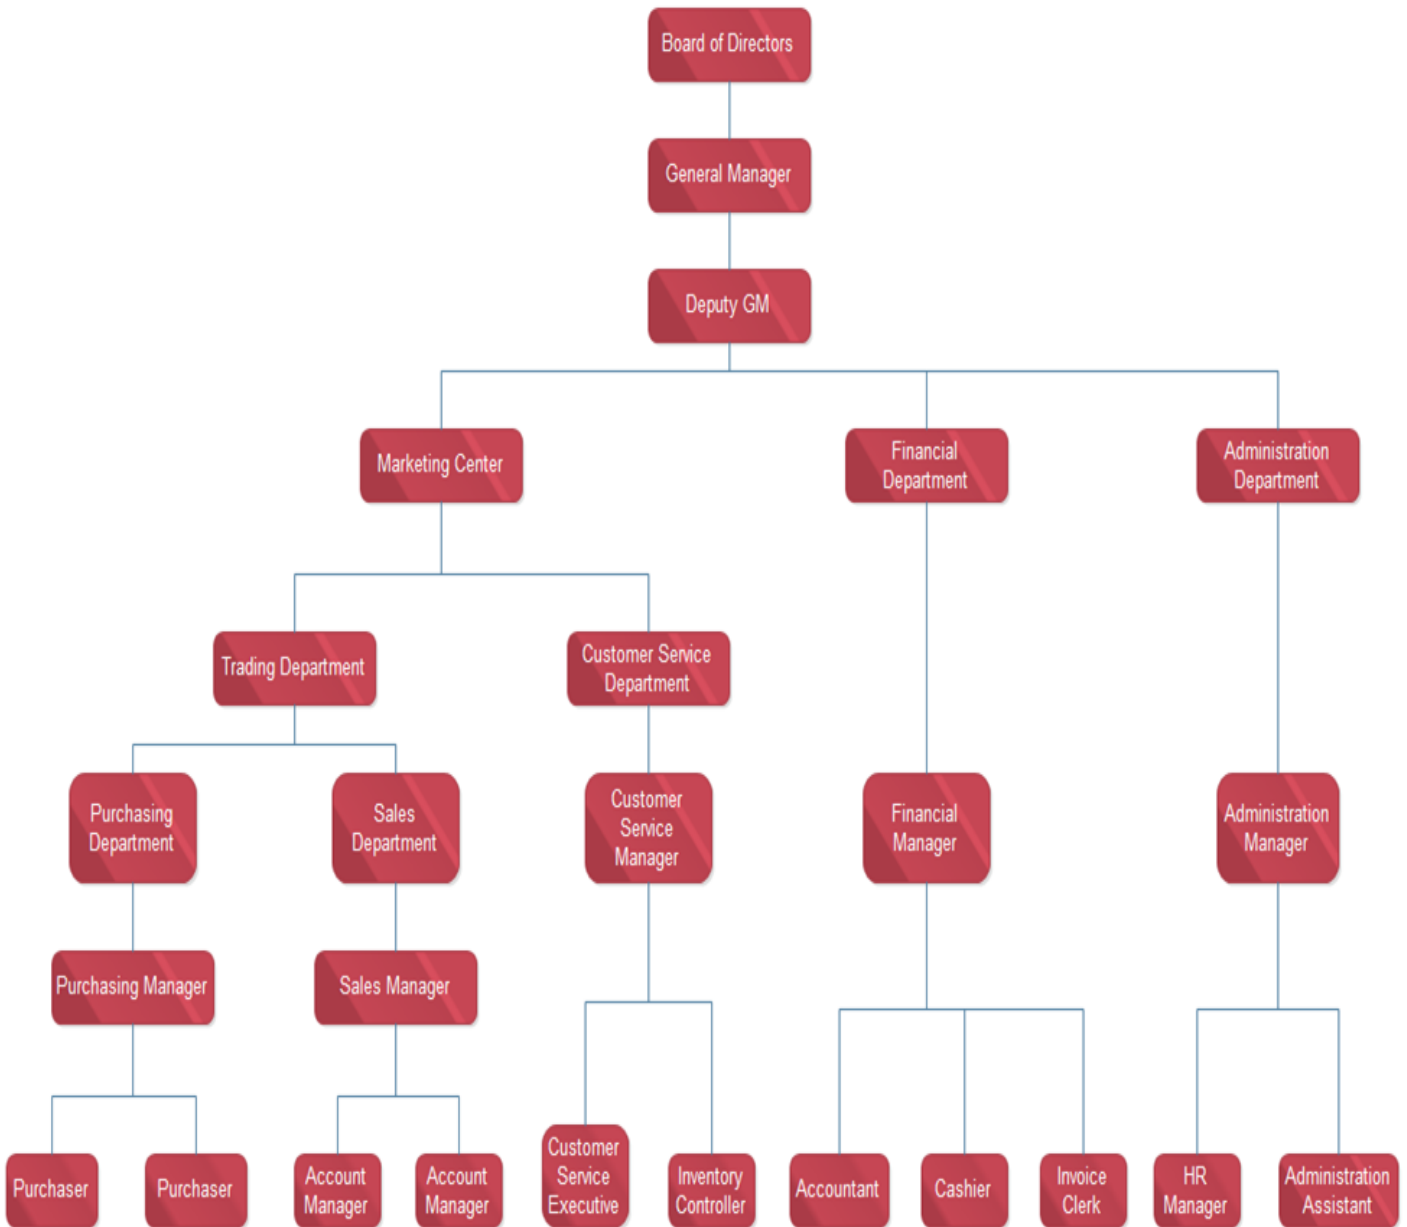

As a Trading service Provider, GLV views sustainability as meeting or exceeding the performance expectations of clients in all of our businesses. In order for us to have sustainable business, we believe we have to continue to deliver our services while ensuring minimum impact from our activities on the environment of the greater community. We believe that sustainability is achieved by actively managing through our core values. They are the foundation that supports our behavior and actions.
